

"I suffered for a number of years with my back,

or kidney trouble, and have tried a number of remedies from different physicians. More than a year ago, one of our local druggists induced me to try

Dr. Miles' Anti-Pain Pills

and after using them some three months I found a decided improvement in my kidneys, and I am glad to say that I hope soon to be fully restored to health.

J. F. Allan,
Former Judge of City Court,
Glasgow, Ky.

Dr. Miles' Anti-Pain Pills have been used with excellent results for pain in any part of the body. By allaying irritation they enable any deranged organ to recuperate and resume its action in a normal way. Ask your druggist about them.

Sold under a guarantee assuring the return of the price of the first box if they fail to benefit.

SUNDAY SCHOOL ASSOCIATION.

The Cumberland County Sunday School Association is for the purpose of promoting the interests of the Sunday schools of the county, and its aim is to reach all of them, and, by co-operation and suggestion, help all of them. It knows no denomination, or, knows all alike, just as you prefer to state it. It is not its aim to make any kind of schools, but good and better ones. What church or whose school is not the question. But the question is, "How can we help it?" The idea is to help make good boys and girls and better people that they may be better citizens and better church members. If the school, for instance, is under the Methodist, the idea is to make better Methodists, which means better people and better citizens and a better county. The same as to any and all churches and to all schools whether under a church or not, the cardinal idea being to save the children and help them build Christian characters and to live in Christ Jesus, whatever church they may choose.

The county president is J. W. Dorton; the county secretary is George P. Burnett and the field secretary is J. V. Wright.

The county is divided into seven Sunday school districts, and each has a president. The First is the same as the old First civil district and its president is S. W. Tollett. The Second is the same as the old Second civil district, with Pomona and Lantana added, and its president is M. L. Taylor. The Third is the same as the old Third and its president is J. S. Waytt. The Fourth is the same as the old 4th., 8th., 9th., and 11th and its president is G. W. Davenport. The Fifth is the same as the old Fifth, with Pomona and Lantana taken off, and its president is Rev. L. A. Hurst. The Sixth is the same as the old Sixth and its president is Esq. Houston McCoy. The Seventh is the same as the old 7th., 10th., and 12th. and its president is H. C. Sabine.

Everybody is asked to join in the work. Train up your children in the way they should go. If you do not, some one will be very apt to train them up in the way you don't want them to go.

J. W. Dorton.

NOT FOR MEN ONLY.

Women suffer as much as men do from indigestion and constipation and require the same scientific remedy to keep the stomach sweet, the liver active and the bowels regular. Foley Cathartic Tablets are wholesome and cleansing; do not gripe or cause nausea. Stout people say this is the one cathartic that takes away that over-full and clogged-up feeling. For sale by Reed & Burnett.

WHICH STATE?

A Southern woman has been elected to serve on the city council of Los Angeles, Cal. She is Mrs. Lindsay and is a native of Pine Bluff, Arkansas.

What a difference geographical position makes! In California, Mrs. Lindsay is an honored member of the city government, and the competent possessor of the vote on election day and in Arkansas she is rated with criminals, idiots, insane and other disfranchised undesirables! Which state affords the better protection to women?

TO SLEEP WELL IN SUMMER.

Mr. Keyes was much pleased to recover the ring and paid the reward.

J. B. Johnson has sweet clover growing in a field on the Grassy Cove road that is eight feet high. Not that the whole field has the clover that tall, but there are some stalks that high. He has only a small amount of the clover as he thought it would do no good and attempted to plow it up this spring. Sweet clover is aimed to be equal to alfalfa as a feed and will produce much more to the acre. While it lives only two years, as do other clovers, it may be handled in such a way as to re-seed the land and by that means have a continuous crop. O. H. Overdell is also trying a small field to see how profitable it will prove.
